

Problem - Solution Fit Validation

Mapping Customer Challenges to Functional Solutions

Validation Matrix

- **Pain: Hospital Queue Overcrowding:** Solution: Interactive Calendar allows patients to book specific hour slots, distributing clinic density evenly.
- **Pain: Clashing Clinic Bookings:** Solution: Mongoose pre-save hooks check schedule overlapping constraints and deny overlapping attempts.
- **Pain: Uncertified Doctor Profiles:** Solution: Registration form and Admin validation workflow ensure only authenticated practitioners get listed.
- **Pain: Lost Paper Prescriptions:** Solution: Doctors write digital reports, patients retrieve and print them directly from their dashboard history.
